Gleeson Managed Fill

TIPPING RATES

Winter rates apply from 1 June to 30 September. Rates marked with * include the $15 Waste Minimization Fund (WMF) Government levy.

Note: Waste Minimization Fund (WMF) Government levy is increasing to $20/t in July 2027.

Material Type	Type 1	Type 2	Type 3
STANDARD / CLEAN MATERIALS			
Clean Fill	$8.00	$12.00	$17.00
Clean Fill - Mixed Vegetation	$15.00	$20.00	$25.00
Recyclables - Concrete & Asphalt	$8.00	$12.00	$17.00
MANAGED / CONTAMINATED SOILS			
Managed Fill*	$27.00	$32.00	$37.00
High Heavy Metal Soil*	$40.00	$45.00	$50.00
ASBESTOS MATERIALS			
Asbestos Soil <0.001%*	$30.00	$35.00	$40.00
Asbestos Soil >0.001%*	$35.00	$40.00	$45.00
Asbestos Soil - Class A >1% (Must Be Wrapped)	$45.00	POA	POA
Asbestos Concrete	$45.00	POA	POA
SPECIAL WASTE			
Vacuum Truck / Hydrovac Waste*	POA	POA	POA
Peat*	POA	POA	POA
Marine Sediments*	POA	POA	POA
Acid Sulphate Soil (ASS)*	POA	POA	POA
ACM Demolition *	POA	POA	POA

All loads require approval and remain subject to inspection and the facility's Conditions of Entry.

GST Exclusive

MATERIAL DESCRIPTIONS

Clean Fill: Natural soil, clay, sand, gravel, and rock.
Clean Fill – Mixed Vegetation: Natural material containing low percentages of vegetation.
Recyclables - Concrete & Asphalt: Concrete and asphalt suitable for recycling.
Managed Fill: Soil above clean fill criteria, or soil with inert material such as concrete, brick, asphalt, or stone. Prior approval required.
High Heavy Metals: Soil or fill above managed fill heavy-metal criteria and requiring special assessment.

Asbestos <0.001%: Soil or fill containing trace asbestos below 0.001%.
Asbestos >0.001%: Soil or fill containing asbestos above 0.001%.
Asbestos Wrapped >1% (Class A/B): Soil containing securely wrapped Class A/B asbestos (>1%), accepted by prior approval.
Asbestos Concrete: Concrete containing asbestos-containing material. Prior approval required.

SPECIAL MATERIAL DETAILS

Vacuum Truck / Hydrovac Waste: Soil, slurry, sediment, and water from hydrovac or vacuum excavation. Prior approval required.

ACM Demolition: Asbestos-containing building and demolition materials, including asbestos cement roofing, wall cladding, fiber cement sheets, cement drainage pipes and other approved ACM products.

ASS (Acid Sulphate Soil): Soil containing sulphide minerals that may generate sulphuric acid when exposed to air.

Marine Sediments: Dredged or excavated marine mud, silt, sand and sediment from coastal, harbour, estuary or tidal environments. May contain salt, organic matter or contaminants. Testing and prior approval required.

MATERIAL TYPE DEFINITIONS

TYPE 1	TYPE 2	TYPE 3
Dry, mostly natural soil, clay, or rock: typically, summer conditions.	Unsuitable or wet material: winter rates apply.	Sloppy, saturated, or otherwise difficult-to-handle material.

CONTACT & SITE INFORMATION

GLEESON MANAGED FILL

300 Riverview Road, Huntly 3771
Phone: 07 902 5107
Email: sales@gleesoncox.co.nz
Website: www.gleesoncox.co.nz

SITE OPERATING HOURS

Monday–Friday: 7:00am–4:30pm
Saturday: 7:00am–11:30pm
Sunday & public holidays: Closed unless arranged

Note: Asbestos loads must arrive 1 hour before closing.

Material classification is determined by the site representative upon inspection, and that decision is final.
