

TIPPING RATES

Winter rates apply from 1 June to 30 September. Rates marked with * include the \$15 Waste Minimization Fund (WMF) Government levy.

Material	Type 1	Type 2	Type 3
Clean Fill	\$8.00	\$12.00	\$17.00
Clean Fill – Mixed Vegetation	\$15.00	\$20.00	\$25.00
Managed Fill*	\$27.00	\$32.00	\$37.00
Asbestos <0.001%*	\$30.00	\$35.00	\$40.00
Asbestos >0.001%*	\$40.00	\$45.00	\$50.00
High Heavy Metals*	\$60.00	\$65.00	\$70.00
Wrapped Asbestos Soil (Class A/B >1%)	\$90.00	POA	POA
Vacuum Truck / Hydrovac Waste*	POA	POA	POA
ASS (Acid Sulphate Soil)*	POA	POA	POA

All loads require approval and remain subject to inspection and the facility's Conditions of Entry.

MATERIAL DESCRIPTIONS

Clean Fill: Natural soil, clay, sand, gravel, and rock.
Clean Fill – Mixed Vegetation: Natural material containing low percentages of vegetation.
Managed Fill: Soil above clean fill criteria, or with small amounts of inert material such as concrete, brick, asphalt, or stone. Prior approval required.

Asbestos <0.001%: Soil or fill containing trace asbestos below 0.001%.
Asbestos >0.001%: Soil or fill containing asbestos above 0.001%.
High Heavy Metals: Soil or fill above managed fill heavy-metal criteria and requiring special assessment.
Vacuum Truck / Hydrovac Waste: Soil, slurry, sediment, and water from hydrovac or vacuum excavation. Prior approval required.

MATERIAL TYPE DEFINITIONS

TYPE 1	TYPE 2	TYPE 3
Dry, mostly natural soil, clay, or rock: typically, summer conditions.	Unsuitable or wet material: winter rates apply.	Sloppy, saturated, or otherwise difficult-to-handle material.

SPECIAL MATERIAL DETAILS

Asbestos Wrapped >1% (Class A/B): Soil containing securely wrapped Class A/B asbestos (>1%), accepted by prior approval.

ASS (Acid Sulphate Soil): Soil containing sulphide minerals that may generate sulphuric acid when exposed to air.
